Assembly talk on the importance of world wetlands day

World wetlands day is celebrated internationally each year on 2nd February. It marks the anniversary of the signing of the convention on wetlands of international importance in RAMSAR Iran on 2ndFeb1971. Wetlands are areas where the water covers the soil or is present either at or near the surface of the soil all year.

Theme of 2017 – wetlands for disaster risk reduction

This theme is selected to raise awareness and to highlight the vital roles of healthy wetlands in reducing the impacts of extreme events such as floods, drought & cyclone on communities and in helping to build resistance.

Since 1997 world wetlands day was celebrated by govt & non-govt organizations and community groups to raise public awareness of wetland value and benefits and promote the conservation and wise use of wetlands. The speech was given by Yamini Poorna Tilakam, II BBC, Sai Suma II BZC.

ASSEMBLY TALK

POSTER PRESENTATION

Elocution competition in connection with national science day

National science day is celebrated in India on 28th February each year to mark the discovery of the Raman effect.

The event is now celebrated all over the country in academic & research institution to discuss all the issues and implement new technologies in the field of science. This topic is based on the theme of NSD – 2017, “Science & Technology for specially abled persons”

According to an official statement from the union Govt’s department of science and technology for University grants commission (UGC). The activities could include science exhibitions, science lectures, special symposia, competitions for students of College etc.

So Eco-club conducted various competitions based on 2017 theme of NSD. The topic was “Technology and its advancement helping the differently abled persons which explains how to make the lives of the differently abled persons better with the use of science and technology. The elocution competition was judged by Shahanaz HoD of English Dept, Sravani English dept and Mr.Bhanu Prasad Principal of Intermediate.

Students enthusiastically participated in the competitions and winners were given prizes by Eco-Club.

Quiz competition on environmental science

In connection with national science day 28th February 2017 eco club conducted a GK test for the students on 10/2/2017 based on questions related to science and technology.

A total of 55 students participated from all departments of our college. The set of questions asked for the test were related to environmental science, basic sciences as well as latest technology .

Quiz is a brief assessment used in education and similar fields to measure growth in knowledge, skills .The questions asked in completion were thought provoking.

Outcome

The competition helped students to learn the process of retrieval (brining information to mind) .This test increased the students meta cognitive thinking and scientific knowledge.

Poster presentations based on theme of National science day – 2017

On account of National science day Eco-club has also conducted a competition on Poster presentation in seminar hall on 20/2/2017.

The topic was based on the 2017 theme of NSD – science & technology for specially abled persons. The students were asked to prepare a posters on the topic “ Technology and its advancement in helping the differently abled persons “. The poster was displayed in seminar hall.

The judges of the competition were Shantha madam HOD Of Chemistry Dept, Varalakshmi madam of Commerce dept and Vidyalakshmi of Maths dept.

Poster sessions offer the opportunity to practice your presentation skills. The posters prepared by students were very effective with use of graphics, colours, illustrations.

OUT COME: Students required presentation skills, research skills. The programme gave

An opportunity for students to actively engage with others during presentation. Students received compliments for their hard work & suggestions from critiques.

PowerPoint presentation (PPT) based on the NSD theme of 2017 technology and its advancement in helping the differently abled persons

A PowerPoint presentation was also held on the same topic “ technology and its advancement in helping the differently abled persons” on 21/2/2017 in connection with NSD. The judges of the competition were Raghuram, Raghu kedarnath Dept of Computer, and Shiva Prasad Dept of Commerce. Winners of all the competitions were declared on February 28 function on National Science Day.

PowerPoint allows you to use images, audio & video to have a great visual impact.

Making your presentation more interesting through the use of multimedia can help to improve audience’s focus.

Outcome : The programme helped the students to reduce speaking anxiety by drawing eyes away from the speaker and towards a screen.
