Report on National Science Day

Introduction:

National Science Day is celebrated every year on 28th February to commemorate the discovery of the **Raman Effect** by the great Indian Scientist C. V. Raman. On this occasion, the Department of Physics organized a **Talent Test** to encourage scientific thinking and creativity among students.

Title: National Science Day

Date: 28/02/ 2026

Venue: Physics Lab

Organized by: Department of Physics

In Collaboration with: EDC & IIC Cell

Target Audience: II B.Sc. Minor Physics & I B.Sc. Major Physics

Number of Participants: 50

Objectives of the Talent Test:

1. To promote awareness about the importance of science in daily life.
2. To encourage students to develop scientific temper and logical thinking.
3. To identify and nurture young scientific talents.
4. To motivate students to participate in competitive examinations.
5. To celebrate the contributions of Indian scientists in the field of science

Details of the Talent Test:

- The test included **multiple choice questions**, reasoning-based problems, and numerical questions from Physics and General Science.
- Questions were designed to test conceptual understanding and analytical skills.
- The competition was conducted in a fair and disciplined manner.

Outcomes of the Program:

1. Students showed great enthusiasm and active participation.
2. The test helped students assess their scientific knowledge and problem-solving skills.
3. It created awareness about career opportunities in science and research.
4. Many students expressed interest in participating in future science-related events.
5. The program successfully promoted scientific spirit among students

Conclusion:

The Talent Test conducted on National Science Day was a grand success. It provided a valuable platform for students to showcase their knowledge and talent in science. The Department of Physics received positive feedback from participants and faculty members. The event truly reflected the spirit of National Science Day and inspired students to pursue excellence in science.
