

Field trip to Ornamental Fisheries, Mamidalapadu.

- On 27 June 2022, the Department of Zoology and the Entrepreneur Development Cell of St. Joseph's Degree College organized a field trip to Ornamental Fisheries in Mamidalapadu.
- Thirty students and three faculty members participated. The farm manager, Mr. Ravi Kumar, provided an informative tour, explaining the breeding, rearing, and maintenance of ornamental fish.
- We observed various fish species and learned about the economic aspects of ornamental fisheries.
- The trip concluded with a Q&A session, offering practical insights into fish farming and entrepreneurship opportunities in this field.
- The visit enriched our understanding of both zoology and business applications.
