The power of Listening

Good morning everyone,

Today I would like to share a few words on a topic “The power of Listening”

One of the famous author is said that “The biggest communication problem is we do not listen to understand we listen to reply.

In today’s world, communication is often quick but not always meaningful. Many people listen only to respond, not to truly understand the other person’s thoughts or feelings. Real communication requires patience, empathy, and open-mindedness. When we listen to understand, we built stronger relationships avoid misunderstanding, and create an atmosphere of respect and learning.

So, let’s try to listen more carefully- not just with our ears, but with our minds and heart.

Thanking you.
