CODE-X

Think in Code, Build the Future

Department of Computer Science

Vision

To ignite curiosity, encourage collaboration, and sharpen logical thinking among students.

Mission

CODE-X shall help students to work together to improve their life by creating opportunities for balanced lifestyles, promoting health and well-being, and encouraging campus wide communication and participation.

The mission of CODE-X is to

👉 Organize activities and events for the students to highlight their inner determination to go forward.

👉 Provide important programs to create self-affirmation in our students.

👉 Offer great services that make student learning environment more enjoyable.

Purpose

The purpose and responsibilities of the CODE-X Committee is:

A: To inculcate technical skills among the students.

B: To assess and augment their soft skills.

C: To stay updated with emerging technologies.

D: To increase career awareness, encourage relationships with professionals, develop leadership skills and promote academic excellence.

E: To guide for participating in symposiums, workshops and seminars at various supportive engineering community.

Few lecturers from the Department of Computer Science act as a facilitators who make a bridge between the students and the administration/Head of the department of Computer Science
